**Spark Databox** is known to be a pre-eminent platform for software certificate training and career development. Through our mission, we are a pioneer or positive change, improve productivity, increase the workforce, and creating a career opportunity for everyone. We are India's #1 software training institute. Apart from receiving excellent live training you will also receive free self-paced video courses, training materials, placement support, mock interviews and many more.

## Program Key Features

- ❖ 100% Practical training
- ❖ Experienced Trainers
- ❖ 100% Placement assistance
- ❖ Small batch size
- ❖ Customized training content
- ❖ Real-time project training
- ❖ Fully equipped cloud lab
- ❖ 100% Customer support
- ❖ 100% Money back guarantee

## About Course:

---

This course points at providing the candidates with the knowledge and understanding of the concepts of **Robotic Process Automation**. Robotic Process Automation excludes the demand for human intrusion for executing monotonous, simple tasks. This course embellishes on the highlights and advantages of adopting Robotic Process Automation techniques in industries.

The course covers on **UiPath**, which is an advance RPA tool. The candidates will gain a meticulous knowledge of UiPath working right from data input, manipulation and validation to reporting of conventional methods and automation with the help of complex utility cases. This will facilitate the candidates to automate real-world practices associated to multiple sectors such as Insurance Claim Processing, and Accounts Purchase Order Processing, Invoice Processing, Complaints Management, Customer Feedback Analysis, Employee Onboarding, Compliance Reporting and more.

## Contents

---

### Section 1: UiPath - Introduction

- What is RPA?
- User Interface
- Shortcuts
- UI Path Studio
- Source control configuration
- How to enable Tracing?
- Creating a basic workflow
- Debugging a workflow
- List Item

### Section 2: Workflow - Types

- Sequences
- Low Charts
- State Machines

### Section 3: Variables

- Managing Variables

- Best practices - Naming
- The Variables Panel
- Types of Variables
- Generic value variables
- Text variables
- Boolean Variables
- Numeric variables
- Array Variables
- Datetime
- Data table

## Section 4: Arguments

- Argument Management
- Best practices
- Arguments panel
- Using Arguments

## Section 5: NameSpaces

- What is namespace?
- Importing Namespaces

## Section 6: Control Flow

- About Control flow
- Control Flow Activities
- The Assign Activity
- The Delay Activity
- The Do While Activity
- The If Activity
- The Switch Activity
- The While Activity
- The For Each Activity
- The Break Activity

## Section 7: Recording

- What is Recording?
- Recording types
- Automatic Recording
- Example of Automatic Recording with Basic and Desktop

- Example of Automatic Recording with Web
- Manual Recording

## Section 8: UI Elements

- About UI Elements
- UI Activities Properties
- Input Methods
- Example of Using Input Methods
- Output or Screen Scraping Methods
- Examples of Using Output or Screen Scraping Methods

## Section 9: Data Scraping

- What is Data Scraping?
- When to Scrape data?
- Examples - Data Scraping

## Section 10: Selectors

- What is Selectors?
- Wildcards
- Full vs partial selectors
- UiPath explorers

## Section 11: Image Automations

- Image based automation
- Text based automation
- Citrix automation

## Section 12: Data Manipulation

- Data Table
- Excel table
- Other data sources

## Section 13: Events

- Mail
- PDF

- Other events

## Section 14: Infrastructure setup

- Project Organization
- Exception handling
- Infrastructure and Administration
- Problems associated with connecting to different systems

## Section 15: Real-time project

- UiPath project environment setup
- Real-time UiPath project
- Project demonstration
- Expert evaluation and feedback

## Section 16: You made it!!

- Spark Databox UiPath certification
- Interview preparation
- Mock interviews
- Resume preparation
- Knowledge sharing with industry experts
- Counselling to guide you to a right path in UiPath career

## You made it!!

Post completion of UiPath Online Course, a proper orientation for placements is done. With this training from experienced trainers, as professionals, you will be equipped with different proficiencies. This is a chance to open up and widen your prospects.

- Spark Databox UiPath course certification
- Interview preparation
- Mock interviews
- Resume preparation
- Knowledge sharing with industry experts
- Counseling to guide you to a right path in UiPath development career
